

CREATING RESPECTFUL SCHOOLS IN A DIVERSE WORLD

Our education services support the Australian Curriculum goal for students to become: **successful learners, confident and creative individuals and active and informed citizens.** They link to learning outcomes across the Australian curriculum as well as the General Capabilities and Cross-Curriculum Priorities.

- **Creating Respectful Schools Professional Learning:** Learn how to address discrimination and bullying through diversity competence.
- **Human books for schools:** Students 'read' living books to build empathy for people of diverse backgrounds, lifestyles and abilities. Sessions delivered by the Hobart Human Library.
- **Living in Between:** Anti-racism workshops delivered by the TasTAFE Students Against Racism.
- **Let's Get Together:** A Tasmania-specific 20 hour diversity education program to create a more respectful school.
- **ruMAD?** (Are you Making A Difference?): A flexible social justice education program, under licence from Foundation for Young Australians.

A rich, real and relevant learning experience - our kids need to see a purpose to their learning and this program achieves this. **Gagebrook Primary Campus Teacher**

- **The Human Rights School Award:** \$500 prize to recognise school activities that promote human rights.
- **The Fairer World Festival:** The largest youth social justice event in Tasmania and Hobart City Council 2012 Australia Day Community Event of the Year.

A FAIRER WORLD program for:

TEACHERS
& SCHOOLS

A social justice hub comprising the Tasmanian Centre for Global Learning, the Global Learning Resource Library & www.afairerworld.org

A FAIRER WORLD

Student workshops

We provide lessons, workshops and simulations that will engage your class with a variety of topics to suit your curriculum needs. Below are examples of popular student workshops we can deliver in your school. We can also tailor sessions to suit your needs on human rights, diversity and discrimination, poverty, social justice and taking action.

- **I AM GLOBAL CITIZEN:** An international multi-media presentation developed by the Global Poverty Project and Plan Australia.
- **Ecological Sustainability & Food Security:** Workshops adaptable for primary to College level. Particularly suited to TQA Food & Nutrition and Grade 9 Geography.
- **Global Poverty Simulations:** Education, Food and Water, Health and Work workshops developed with Filipino organisation Bahay Tuluyan.
- **Global Poverty and Millennium Development Goals:** A workshop developed specifically for the TCE Health Studies curriculum but adaptable to other areas such as gender studies or AAP.
- Workshops can also be used to link students to community groups such as Oaktree and Oxfam Australia.

Thanks for an excellent presentation today! Curriculum materials, movies and activities were all fantastic. This was very useful for the students and a huge help to me in teaching Health Studies. **Jane MacDonald, Guilford Young College**

Professional support

As well as education programs and student workshops, we provide a range of other professional services to schools and teachers. These include professional development, curriculum materials and learning resources, classroom support, mentoring, networks, promotion, evaluation and reporting.

See our Professional Fees brochure for more information.

My students continuously ask me which DVD we're watching next. Every resource I have used from the library has been eye-opening and useful, correlating directly with the Australian Curriculum. **Emily Davey, Oatlands District High School Teacher**
