

Are you 18-24?

*Do you have to rely on the
bus/tram/train/bike/walking?*

Have you been stranded due to the lack of
public transport?

*Or, had to reschedule your day because you
just can't get there?*

Can you afford public transport? Or to get your
licence?

do YOU want to help change it?

The PublicTransition is following on from the success of the
Tasmanian Bus It Challenge (www.busit.info) and is a
movement of young Australians who want to see a stronger
public transport system in their community, towns and
state.

If you are frustrated but wanting to act for a better public
transport system in your state we want to hear from you.

Nationally we will generate a discussion and work towards
better and more reliable public transport solutions for all.

To get involved email thepublictransition@gmail.com
(website to come)
